

**Vanguard Money Market Funds Apply to Participate in  
Treasury Guarantee Program**

**Vanguard's money market funds, including the Prime Money Market utilized by UPAL in its Retirement Program, will participate in the U.S. Treasury Department's program to support the account values of money market mutual funds.**

**The Treasury Guarantee Program guarantees that an investor is covered for the lesser of two amounts: the balance in the fund account as of September 19 or the balance in the fund on the day the fund failed to maintain its stable \$1 per share value. This temporary program extends only to the balance in the fund on the date it "breaks the buck."**
