

Use the [EHR Incentive Programs Eligibility Wizard](#) to find out if you are eligible to participate in the Medicare and/or Medicaid electronic health record (EHR) incentive programs, earning incentive amounts up to \$44,000-\$63,750.

This tool, developed by the Centers for Medicare & Medicaid Services (CMS), allows physicians to find out which incentive program to register for by answering a few short questions. Remember, physicians can participate in only one program. A one-time switch between programs is allowed before 2015.
